For the first half of the class, you'll synchronize breath with a rhythmic flow designed to improve overall strength and mobility. For the second half of class, you'll focus on traditional Yin poses and passive stretches designed to lengthen your connective tissues helping you relax into the deepest layers of the body. **Vinyasa:**

a flow style of yoga that simply intertwines postures with breath. The flow is a continuous, non-fragmented, synthesis of the movements between body, breath and heart. Bring balanced health and harmony to your body and mind by incorporating Vinyasa Flow yoga within your exercise regime.

**Zumba:** we take the "work" out of workout, by mixing low and high-intensity moves for an interval-style, calorie-burning dance fitness party. Once the Latin World rhythms take over, you'll see why Zumba® Fitness classes are often called exercise in disguise.
